

EASY
AUTHORING

AUTHOR PLUS

online

COURSEWORK ON DEMAND

and it marks itself...

Yes, it's true!
With **Author Plus Online** you can put interactive activities on a website for students to work on in class, at home, in the library or anywhere else they can get onto the Internet. Their results are stored on the school server for you to access from the network.

This makes Author Plus Online ideal for:

- > pre-courses for overseas students
- > revision and exam practice
- > ongoing post-course practice
- > measuring student progress
- > interactive whiteboards in class
- > off-site training
- > cooperative authoring for students
- > interactive homework activities

How difficult is it to create Author Plus materials? For teachers with a

basic knowledge of Windows it is quick and easy: in government-run training sessions, over 300 teachers each created at least two multimedia activities in their very first 90 minutes on the program.

And Author Plus is a real resource-saver. Supplementary activities can be used again and again by successive classes with no extra work and no need for photocopying. Scores are automatically recorded, saving you marking time, and it is easy for you

and your colleagues to share materials. If you don't have time to create your own activities, you can license ready-to-run courses from Clarity or Clarity's development partners.

Why not prove to yourself how convenient Author Plus Online is?

Just click into some sample activities at www.AuthorPlus.com!

> 10 THINGS YOU CAN DO WITH AUTHOR PLUS ONLINE

Why is

Author Plus Online the ideal program for online learning?

> EASY TO USE...

If you can use Windows, you can create activities in **Author Plus Online!** The program is designed for teachers and comes with extensive support materials, including ready-made training sessions for you to use with your colleagues.

> TECHNICALLY EXCELLENT...

Author Plus programs have been chosen by Cambridge University Press, the British Council worldwide, Ministries of Education on three continents and thousands of schools and colleges around the world. In August 2003, Author Plus was approved by the **UK Government's Curriculum Online team.**

Clarity's Technical Director, Dr Adrian Raper, has sat on ISO Technical Committees which develop International Standards for software. He ensures quality control for all Clarity programs, and manages Clarity's highly responsive technical support desk.

Author Plus Online will be SCORM and AICC compliant by December 2003.

> GREAT TO LOOK AT!

**FLEXIBLE
TEACHING**

Change the interface to suit your target students. This exercise is for eight-year-olds studying adjectives; the one overleaf is for engineering students learning to interpret and describe line graphs. **Author Plus Online** is supremely flexible!

> AND SO PRACTICAL

With **Author Plus Online**, learners can work on interactive activities wherever they can access the Internet, anywhere in the world, at any time of the day or night. Author Plus activities are "very popular with students, attractive, and easy to use". Watch your students reap the benefits!

> Visit www.AuthorPlus.com for demos, FAQs, prices... and much more!

Choose Clarity for effective, enjoyable, easy-to-use software
